

Project: Pharmacy/ Drugstore

Team: “Nomads”: Alua Sansyzbayeva, Beksultan Kurmangazy, Nurakhmet Matanov

Description: Drugstore is a web site where customers buy different types of medicine or some medical products online 24/7. To purchase some product it is needed to firstly, sign up then to log in. Website will contain a list of available medicine, their cost. A customer can buy products in large amount. There will be an option of adding chosen product to basket and buy it later. Also, a user can became a regular client by buying several times and get some sale for future purchase. Moreover, if customer is signed up first time, we can activate some coupon for him/her.
